COVER LETTER

Dr. Nesrin Ahmed Abbas Abu-Zeid
PHONE: 01001221662 , E.mail: Drnesrinabbas1@gmail.com

Date: July 30th, 2022.

Dear Members of the Search Committee,

I am writing to register as an Expert position. I am currently Acting Head of Economics Department, Faculty of Business and Economics, Badr University in Cairo.

I Certified Entrepreneurship Trainer, WADHWANI Foundation, External Reviewer -National Authority for Quality Assurance and Accreditation of Education (NAQAAE), and Member of Economics and Management Sciences Research Council - Academy of scientific research & Technology, in Accordance with Higher Education and Scientific Research Minster Decision NO.145 on 29 September 2021.

I held many positions besides the main academic position , as I am Director of Faculty's Quality Assurance Unit (QAU), Assistant Vice President (for Graduate Studies, Scientific Research, and International Affairs); for Continuing Education and Sustainability.

In addition, I am a member of the undergraduate bylaw amending committee, member of the graduate studies bylaw preparation committee. in the university I has an active role as a member of BUC international Ranking committee, BUC International Accreditation committee, BUC Internationalization committee Which prepare BUC internationalization Strategy (2021-2026), BUC Internal Quality Assurance Auditing committee.

I Built Internal Quality System at Faculty of Business and Economics According to Naqaae Standards Since September 2018, which resulted to qualify three Academic programs to apply for NAQAA accreditation in May 2021, Including Prepared the faculty's Strategic Plan, Formal Quality Assurance Policy (Tools and processes to Define, implement, measure, Evaluate, Assure, and Enhance Quality), and Structures supporting the internal quality assurance processes.

Currently, my interdisciplinary research interests brings together Economics, Finance, and Digitalization. Also I interested in the areas of sustainable development. I have published Scopus Q1 paper, and I am working in many other researches. I am working to finish my first book "feasibility studies".

I would enjoy discussing this position with you in the weeks to come. In the meantime, I am enclosing my curriculum vitae and statements of teaching and research interests. Letters of recommendation will arrive under separate cover. If you require any additional materials or information, I am happy to supply it. Thank you very much for your consideration.

Sincerely,

Nesrin Abbas

Egypt Entrepreneurship Summit 2021, GEN Egypt, Badr University in Cairo, Egypt.

Speaker at a panel discussion titled “The Impact Of Agility: How To Shape Your Organization To Compete”, 18 February 2022.

RESEARCH STATEMENT

Research Statement

Nesrin Ahmed Abbas , Assistant Professor of Economics , Certified Entrepreneurship Trainer- WADHWANI Foundation.

I obtained my PhD in Economics at Helwan University in April 2013, and hence, most of my previous scholarly work has been carried out in the four years as a PhD candidate before. Some of my work, however, dates back to jobs as a Senior Economist earlier on in my professional career.

I am an international economist who genuinely believes in rigorous applied social science research aimed to improve our world. I enjoy pursuing theoretically founded empirical research to address policy-relevant questions. Most of my efforts aim to build applied models of interconnected cross-border flows and estimate policy changes and shocks. However, I am a staunch advocate of interweaving with related disciplines (business and management) and a broader audience (policy-makers and students). Therefore, I delve into several other topics like Entrepreneurship, Renewable Energy, financial sustainability, financial Technology, Digitalization, Public Policy and corporate governance, which I find relevant and appealing. Moreover, these topics often provide new insights and fresh ideas that re-enforce my economics research.

Three objectives summarize my research agenda broadly:

- Developing context-specific tractable models for Economic growth, International Economics, Financial Development, and sustainability with many of the literature’s common elements.
- Moving forward on the empirical estimation of Economics models to guide policy-relevant questions.
- With my research, I aim to find answers to a variety of questions, but the following broadly formulated research question reflects my principal interest:
“How can individuals be channeled into directions of entrepreneurial activity that are most productive to themselves, the organization(s) that they belong to (if any), and/or the society? “
 - **Here, *productive* may refer to happiness, job satisfaction, and wage income/profits at the individual level, to (growth of) sales or profits at the firm level, and to macroeconomic growth – for example, in terms of employment levels or labor productivity – at the country level.**

Previous work:

- **PEER-REVIEWED PUBLICATIONS :**
 - “The Impact of the Volatility in Oil Prices on Saudi Arabia’s and Algeria’s Military Expenditure: A Comparative Study”, International Journal of Energy Economics and Policy, 2021, 11(6), ISSN: 2146-4553, pp. 180-190.
 - “The Impact of Financial Inclusion on GDP Growth in Egypt”, JSEC , Faculty of Business, Ain Shams University, 2020, ISSN26362562.
 - “Android Malware Prevention on Permission Based”, International Journal of Applied Engineering Research, 2020, Volume 15 (1) ISSN 0973-4562, pp. 5-11.

- “The Impact of Cryptocurrency on Emerging Markets Focus on gulf countries”, Life Science Journal, 2018, 15 (1).
 - “Quantative Analysis of Chimerica Phenomenon”, Journal of Trade Research and Studies, Faculty of Commerce and Business Administration, Helwan University, 2012.
 - “Chimerica Phenomenon: Theoretical Background”, Journal of Trade Research and Studies, Faculty of Commerce and Business Administration, Helwan University, 2012.
 - “The Chinese Model in Development of Exports”, Journal of Trade Research and Studies, Faculty of Commerce and Business Administration, Helwan University, 2008.
 - “The International Evaluation Criteria for Egyptian Universities “, Working Paper Participated in International Conference of Competitiveness Abilities for Egyptian & Arabian Universities and Higher Education & Scientific Research Institutions Under Agreements of Liberalization of International Trade in Services (7-9 May 2006).
- **As a member of Economics and Management Sciences Research Council - Academy of scientific research & Technology :**
- Participate in working paper about the vision of the Economics and Management Sciences Research Council On the issues will be discussed at the Climate Change Conference COP 27, which will organized at Egypt, in November 2022. My participation was wrote about “the international role in bridging climate financing gap”.

Work in progress:

My work in progress can be roughly subdivided into (1) a multi-site replication endeavor in Economics, and (2) research on decision making in Economics contexts.

Frist, As a member of Economics and Management Sciences Research Council - Academy of scientific research & Technology. EMSR is a Council for Strategic thinking and foresight for the future to achieve the strategic goals of Egypt’s Vision 2030.

In light of Egypt's changing internal and regional circumstances- the council aims to face these new challenges in cooperation with the various ministries and the private sector by setting welfare and prosperity as the main economic objectives to be achieved through sustainable development, social justice and a balanced, geographical and sectoral growth. The Sustainable Development Strategy deals with three main dimensions; economic, social, and environmental.

Despite a few recent praiseworthy initiatives, the number of studies in the field of measuring the impacts remains far too limited. Therefore, the council built a consortium of research teams from multidiscipline background, that each would work on Following Studies:

- 1- “Studying the Economic Effects of the First Phase of Decent Life Initiative “.
- 2- “Opportunities and areas for increasing the local component in the Egyptian industrial structure within the framework of the project 'Supporting Industrial Production Competitiveness”.
- 3- “Meeting Ethics Challenges In The Digitalization Of Financial Services”

As a Member of these teams, Collaborating teams coming from institutionally different background will apply the methodological protocol of the original study to data obtained from a sample. Hence, this part of

the endeavor will reveal the extent of empirical generalization. A subsequent moderated meta-analysis will determine the boundary conditions under which an issue of the study is most conducive to performance, and is denoted the empirical extension part of the endeavor. Studies will introduce issues domain and demonstrate the multi-dimension analysis; and how it can use advance research on Support decision making in Economic contexts. We consider decisions made by Government officials, and the regional and international challenges. We know that certain decisions are strongly influenced by many national and international variables. Therefore, we contend that Research methodologies are more efficient and accurate, and may reveal important factors that so far have been omitted in explaining decisions that are vital for economic survival and growth.

Second, in conceptual and analytical papers; I am working on two Papers in the field of: economics of renewable energy, financial development.

Future Research Goals:

In addition to the aforementioned substantive research goals, I have the personal ambition to become a well-known expert and respected scholar in the field of Financial Economics, Digital finance and Entrepreneurial economics research. I hereby aim to bridge the gap between science and business (1) by getting inspired by questions from “the field”, and (2) by sharing implications and recommendations for business and government policy more clearly.

To the same end, I am currently enrolled in Public Policy Excellence Program at the Egyptian center of economic studies (ECES); this Specialized Program is the first and only program in the Middle East that offers scientific and realistic content in Arabic for public policy. Participating in the program helps me to have the technical and scientific skills that keep pace in this highly specialized field.

In addition, I am working on editing a practical textbook that is provisionally titled “Feasibility Studies” [forthcoming Obeikan Publishing].

TEACHING PHILOSOPHY

Dr. Nesrin Ahmed Abbas Abu-Zeid

Statement of Teaching Philosophy,

My philosophy of teaching is to create an environment that allows for supervised exploration. I believe that the most significant learning occurs in situations that are both meaningful and realistic. The overriding goal of my teaching has been to place learners in these types of situations. I love teaching when the learning in my classroom is palpable: When I can sense it in the quickening pace of a roundtable discussion or a student's visible delight in using newly learned jargon; when I can hear the excitement in students' testimonials about mastering skills that "made a difference" or theories that transformed practices and perspectives. I count these as teaching successes and make it a habit to reflect on their origins so that I can recreate the conditions for their occurrence repeatedly. My philosophy of teaching is informed by the material I teach, relevant scholarship, relevant realistic issues and and the Experience I have accumulate throughtout my career in education.

I believe that learner-oriented teaching promotes learning that is both purposeful and enduring. As a teacher, it is my responsibility to know who my learners are, what kinds of knowledge and experience they bring to the group, and what they want to achieve so that I can tailor a curriculum that fits their needs and yet leaves enough room to accommodate topics that emerge from group discovery. By assessing where my learners are with respect to our mutual learning goals, I can provide the scaffolding they need to build connections between what they already know and the new understandings they seek to create. I embrace case based teaching and other active learning activities because they stimulate intellectual camaraderie, argumentation, and cooperative problem solving and lay the groundwork for life-long collaborative practice.

I believe that teachers who demonstrate curiosity and passion about a subject area motivate students to learn and so choose to co-teach with colleagues whose scholarship and expertise are complementary to mine. Collaborating with faculty who are enthusiastic about using instructional methods rooted in social constructivist principles models how scholarship, teaching, and learning are enhanced by diversity and teamwork.

My goal as a teacher is to ignite in my learners a passion to create an institutional teaching and learning environment that fosters a conflagration of educational experimentation and innovation at this academic institution.

RECOMMENDATION LETTERS

BUC
BADR UNIVERSITY IN CAIRO
جامعة بدر بالقاهرة

Date: March 27th, 2022.

To whom it may concern,

It Is My Pleasure To Enthusiastically Recommend Dr. Nesrin Ahmed Abbas Abu-Zeid Assistant Professor of Economics.

I am *Prof. Dr. Amr Ibrahim Abdelrahman Elatraby* the Former Dean of the Faculty of Business and Economics, Badr University, and currently the Vice President for Graduate Studies, Scientific Research and International Affairs, Badr University in Cairo (BUC).

I had the pleasure of working with Dr. Nesrin Abbas for the whole academic year of (2020/2021) During my work as a Dean of the Business school and academic year of (2021/2022) During my work as the Vice President for Graduate Studies, Scientific Research and International Affairs, she held many positions including being Acting Head of Economics Department, Director of Quality Assurance Unit (QAU), member of the undergraduate bylaw amending committee, member of the graduate studies bylaw preparation committee, in addition she has an active role as a member of BUC international Ranking committee, BUC International Accreditation committee, BUC Internationalization committee Which prepare BUC internationalization Strategy (2021-2026), BUC Internal Quality Assurance Auditing committee.

Dr. Nesrin Abbas Built Internal Quality System at Faculty of Business and Economics According to NAQAAE (National Authority for Quality Assurance and Accreditation of Education) Standards Since September 2018, which resulted to qualify three Academic programs to apply for NAQAAE accreditation in May 2021, Including Prepared the faculty's Strategic Plan, Formal Quality Assurance Policy (Tools and processes to Define, implement, measure, Evaluate, Assure, and Enhance Quality), and Structures supporting the internal quality assurance processes.

Over that time Dr. Nesrin showed amazing positive attitude and eagerness for consistently performing her duties with competence and often goes the extra mile, doing more than expected. Her academic resume proves high achievements. She was known by hardworking, pleasing manner, through her work. She showed considerable interest and enthusiasm in scientific researches. She has a very active and responsible attitude towards students and extends her remarkable skills to colleagues and others.

During our time together Dr. Nesrin displayed great skills and capabilities in problem solving. In addition, she is an impressively high competent and responsible instructor, with high work ethics.

I am highly confident without reservation that Dr. Nesrin is a great value added and a productive addition to Badr University in Cairo (BUC).

Feel free to contact me at (+201006668069) or (Amr.Elatraby@buc.edu.eg or amrelatraby@yahoo.com) if you have any questions or would like me to further elaborate on Dr. Nesrin's talents and achievements.

Sincerely,

Amr I. A. Elatraby

Higher Education and Scientific Research Minister Decision

- عضو مجلس بحوث العلوم الاقتصادية والإدارية – أكاديمية البحث العلمي والتكنولوجيا، وفقاً لقرار وزير التعليم العالي والبحث العلمي رقم ١٤٥ الصادر بتاريخ ٢٩/٩/٢٠٢١.
- أمين مجلس بحوث العلوم الاقتصادية والإدارية – أكاديمية البحث العلمي والتكنولوجيا، وفقاً لقرار وزير التعليم العالي والبحث العلمي رقم ٢٠ الصادر بتاريخ ١٦/٢/٢٠٢٢.

الدكتور/ نسرين أحمد عباس ابوزيد

كلية الإدارة والعلوم المالية والإقتصادية - جامعة بدر

تحية طيبة .. وبعد.

من دواعي سروري أن أبعث لسيادتكم بأصدق التهاني القلبية لصدور قرار معالي وزير التعليم العالي والبحث العلمي رقم ١٤٥ والصادر بتاريخ ٢٩ / ٩ / ٢٠٢١ باختيار سيادتكم عضواً بمجلس بحوث العلوم الأقتصادية والإدارية أحد التشكيلات العلمية بقطاع المجالس النوعية بالأكاديمية ، ويسعدني أن أرفق لسيادتكم صورة ضوئية من القرار الوزاري، متمنياً لسيادتكم وأعضاء مجلسكم الموقر دوام التوفيق.

واني على يقين بأن سيادتكم وأعضاء المجلس تشاركونني الرأي في أن بلادنا الحبيبة تشهد عصر من النهضة الغير مسبوقه في جميع المجالات وأن المرحلة المقبلة هي مرحلة تحول هامة في تاريخ نهضة مصر العلمية والتكنولوجية، وأن مجلسكم الموقر كمجلس فكر استراتيجي واستشراف للمستقبل سيضع نصب عينيه متطلبات العصر لمجابهة التحديات التي قد تواجه مصر من أجل تحقيق الاهداف الاستراتيجية التي تتوافق مع استراتيجية العلوم والتكنولوجيا والابتكار واستراتيجية مصر للتنمية المستدامة "رؤية مصر ٢٠٣٠"

وفقكم الله على تواصل البذل والعطاء من أجل مصرنا العزيرة

وتفضلوا سيادتكم بقبول وافر التحية والاحترام

رئيس الأكاديمية

د.أ. محمود محمد صقر
